Henderson, appointed by the clay. The delegation takes with it a petition, signed by more than 100 taxpayers, which urges the passage by the legislature of a \$5.000,000 hond issue for county boards to be appointed to act with the state board of engineers and five on East Overland street were found open Sunday by constable Domingon that 75 percent of all money raised in a county or for which the county is responsible, be expended on the roads in that county, the remaining 25 percent to go into a general state fund.

A total of 4901 parcels were handled by the Bisbee posteffice for the first month of the parcels post service. This includes both the outgroing and incoming packages, about two-thirds as many being received as were sent. The first day not more than a dozen parcels were sent, but a steady increase has been shown daily. Postmaster Capsidy says that he expects that at least 5000 packages will be handled a month.

Las Cruces, N. M., Feb. 10.-In a colision last night on Griggs street between a bugov and a carriage, Mr. and Mrs. Youst, who live near town, were injured and both vehicles were damaged.

The accident occurred in front of the residence of Mrs. E. E. Day shortly after dark. Mr. and Mrs. Youst were driving to church and the lights on that part of Grigga street being out of commission and the night unusually dark, a scarriage driven by a Mexican ran into the buggy of Mr. and Mrs. Yoast, badly breaking the latter vehicle. The carringe also was slightly damaged. The two drivers were able to stop the horses and hold them until help arrived to aid them in separating the vehicles Mr. and Mr. Youst were injured, but not seriously it is thought. Mrs. Yoast was thrown forward, her forchead strika brief period. Mr. Yoast had one hand cut, but was not otherwise much hurt.

Congressional Committee Attacks the Reclamation Service in Report.

Charges of incompation maiadministration of the recla-mation service are made and an appro-priation of \$25,000 is requested for a congressional inquiry that will deal broadly with reclamation projects in a report which will be sent to the house by the interior department expenditures

The report recommends during the pendency of the proposed inquiry a "rule" for the removal from office of assistant accretary of the interior Samuel Adams and F. H. Newell and L. C. Hill. director and supervising engineer, respectively, of the reclamation service.

Newall Denies Allegations.

Interior department officials, including director Newell, fiatly denied the allegations in the printed report, which is unsigned but which was given out by the committee with the statement that representative Hensley, of Missouri, would present it today.

Charge Discrimination.

The report charges that "Newell and

Charge Discrimination.
The report charges that "Newell and his associates," discriminated against the farmers and that the corporations speciating the canals and the bondholders thereof" alons received from them in the Salt River project."
It is alleged that the reclamation act provides that only the estimated cost of construction may be recovered by the government and the estimate of the secretary of the interior was \$2.

cost of construction may be recovered by the government and the estimate of the secretary of the interior was \$3,-\$50,000 and the expenditures to date have been \$10,547,396. "The government's loss on this project appears to be \$6,747,396." says the report.

Charge "Absurd." Says Newell.

"The statement that the government will lose \$6,000.000 on the Salt Biver project is absurd." declared director Newell. "It will collect every dollar it has invested there if the present law is not changed. As for the charges against reclamation officials, any man mentioned will welcome investigation by honest and competent men. Not one charge has been made on this report but what can be refuted.

"It is a poor reward of faithful performance of duty to be compelled to submit to so partisan and unfair charges as contained in this report which has no signature. It looks like another adroit attack on conservation."
